Energy performance certificate (EPC)

| 86 Honey Hall Road LIVERPOOL L26 1TQ | Energy rating | Valid until: | 6 October 2035 |
|--|---------------|---------------------|--------------------------|
| | | Certificate number: | 9320-2773-7500-2205-8585 |
| Property type Mid-terrace house | | | |
| Total floor area | 8 | 1 square met | tres |

Rules on letting this property

You may not be able to let this property

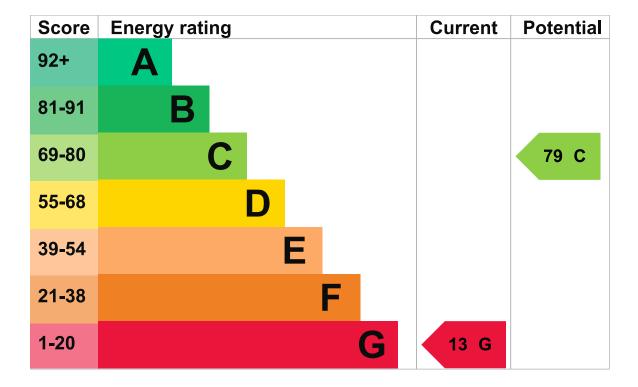

This property has an energy rating of G. It cannot be let, unless an exemption has been registered. You can read guidance for landlords on the regulations and exemptions (https://www.gov.uk/guidance/domestic-private-rented-property-minimum-energy-efficiency-standard-landlord-guidance).

Properties can be let if they have an energy rating from A to E. You could make changes to <u>improve this</u> property's energy rating.

Energy rating and score

This property's energy rating is G. It has the potential to be C.

See how to improve this property's energy efficiency.

The graph shows this property's current and potential energy rating.

Properties get a rating from A (best) to G (worst) and a score. The better the rating and score, the lower your energy bills are likely to be.

For properties in England and Wales:

- the average energy rating is D
- the average energy score is 60

Breakdown of property's energy performance

Features in this property

Features get a rating from very good to very poor, based on how energy efficient they are. Ratings are not based on how well features work or their condition.

Assumed ratings are based on the property's age and type. They are used for features the assessor could not inspect.

| Description | Rating |
|--|---|
| Cavity wall, as built, no insulation (assumed) | Poor |
| Pitched, 12 mm loft insulation | Very poor |
| Fully double glazed | Poor |
| Room heaters, electric | Very poor |
| | Cavity wall, as built, no insulation (assumed) Pitched, 12 mm loft insulation Fully double glazed |

| Feature | Description | Rating |
|----------------------|---|---------|
| Main heating control | No thermostatic control of room temperature | Poor |
| Hot water | Gas multipoint | Average |
| Lighting | Good lighting efficiency | Good |
| Floor | Solid, no insulation (assumed) | N/A |
| Air tightness | (not tested) | N/A |
| Secondary heating | None | N/A |

Primary energy use

The primary energy use for this property per year is 311 kilowatt hours per square metre (kWh/m2).

About primary energy use

Additional information

Additional information about this property:

Cavity fill is recommended

Smart meters

This property had **no smart meters** when it was assessed.

Smart meters help you understand your energy use and how you could save money. They may help you access better energy deals.

Find out how to get a smart meter (https://www.smartenergygb.org/)

How this affects your energy bills

An average household would need to spend £4,310 per year on heating, hot water and lighting in this property. These costs usually make up the majority of your energy bills.

You could save £3,397 per year if you complete the suggested steps for improving this property's energy rating.

This is **based on average costs in 2025** when this EPC was created. People living at the property may use different amounts of energy for heating, hot water and lighting.

Heating this property

Estimated energy needed in this property is:

- 13,892 kWh per year for heating
- 1,772 kWh per year for hot water

Impact on the environment

This property's environmental impact rating is C. It has the potential to be C.

Properties get a rating from A (best) to G (worst) on how much carbon dioxide (CO2) they produce each year.

Carbon emissions

| An average household produces | 6 tonnes of CO2 |
|--------------------------------------|-------------------|
| This property produces | 2.7 tonnes of CO2 |
| This property's potential production | 2.2 tonnes of CO2 |

You could improve this property's CO2 emissions by making the suggested changes. This will help to protect the environment.

These ratings are based on assumptions about average occupancy and energy use. People living at the property may use different amounts of energy.

Steps you could take to save energy

▶ Do I need to follow these steps in order?

Step 1: Increase loft insulation to 270 mm

| Typical installation cost | £900 - £1,200 |
|--|---------------|
| Typical yearly saving | £701 |
| Potential rating after completing step 1 | 22 F |

Step 2: Cavity wall insulation

| Typical installation cost | £900 - £1,500 |
|---|---------------|
| Typical yearly saving | £814 |
| Potential rating after completing steps 1 and 2 | 35 F |

Step 3: Floor insulation (solid floor)

| Typical installation cost | £5,000 - £10,000 |
|--|------------------|
| Typical yearly saving | £164 |
| Potential rating after completing steps 1 to 3 | 38 F |

Step 4: Gas condensing boiler

| Typical installation cost | £3,500 - £10,000 |
|--|------------------|
| Typical yearly saving | £1,718 |
| Potential rating after completing steps 1 to 4 | 74 C |

Step 5: Solar photovoltaic panels, 2.5 kWp

| Typical installation cost | £8,000 - £10,000 |
|--|------------------|
| Typical yearly saving | £214 |
| Potential rating after completing steps 1 to 5 | 79 C |

Help paying for energy saving improvements

You may be eligible for help with the cost of improvements:

- Free energy saving improvements: <u>Home Upgrade Grant</u>
- Insulation: Great British Insulation Scheme
- Heat pumps and biomass boilers: Boiler Upgrade Scheme
- Help from your energy supplier: Energy Company Obligation

Who to contact about this certificate

Contacting the assessor

If you're unhappy about your property's energy assessment or certificate, you can complain to the assessor who created it.

| Assessor's name | Robert Dobos-Borsos |
|-----------------|-------------------------------------|
| Telephone | 01495 234 300 |
| Email | epcquery@vibrantenergymatters.co.uk |

Contacting the accreditation scheme

If you're still unhappy after contacting the assessor, you should contact the assessor's accreditation scheme.

| Accreditation scheme | Elmhurst Energy Systems Ltd |
|----------------------|-----------------------------|
| | |

| Assessor's ID | EES/034785 |
|---------------|--------------------------------|
| Telephone | 01455 883 250 |
| Email | enquiries@elmhurstenergy.co.uk |

About this assessment

| Assessor's declaration | No related party |
|------------------------|------------------|
| Date of assessment | 7 October 2025 |
| Date of certificate | 7 October 2025 |
| Type of assessment | ► RdSAP |
| | <u> </u> |
