# Energy performance certificate (EPC)

0 Orean Lana West	Energy rating		30 January 2034	
2 Green Lane West Sealand DEESIDE CH5 2LJ	E	Certificate number:	2481-9813-0711-2323- 1962	
Property type	n	Mid-terrace house	9	
Total floor area	8	37 square metres		

## Rules on letting this property

Properties can be let if they have an energy rating from A to E.

You can read guidance for landlords on the regulations and exemptions (https://www.gov.uk/guidance/domestic-private-rented-property-minimum-energy-efficiency-standard-landlordguidance).

## **Energy rating and score**

This property's energy rating is E. It has the potential to be B.

<u>See how to improve this property's energy</u> <u>efficiency</u>.

Score	Energy rating	Current	Potential
92+	Α		
81-91	B		84 B
69-80	С		
55-68	D		
39-54	E	49 E	
21-38	F		
1-20	G		

The graph shows this property's current and potential energy rating.

Properties get a rating from A (best) to G (worst) and a score. The better the rating and score, the lower your energy bills are likely to be.

For properties in England and Wales:

the average energy rating is D the average energy score is 60

## Breakdown of property's energy performance

### Features in this property

Features get a rating from very good to very poor, based on how energy efficient they are. Ratings are not based on how well features work or their condition.

Assumed ratings are based on the property's age and type. They are used for features the assessor could not inspect.

Feature	Description	Rating
Wall	Cavity wall, as built, no insulation (assumed)	Poor
Roof	Pitched, 200 mm loft insulation	Good
Window	Fully double glazed	Average
Main heating	Boiler and radiators, smokeless fuel	Poor
Main heating control	No time or thermostatic control of room temperature	Very poor
Hot water	From main system, no cylinder thermostat	Poor
Lighting	Low energy lighting in all fixed outlets	Very good
Floor	Solid, no insulation (assumed)	N/A
Secondary heating	None	N/A

#### Primary energy use

The primary energy use for this property per year is 318 kilowatt hours per square metre (kWh/m2).

## How this affects your energy bills

An average household would need to spend **£2,165 per year on heating, hot water and lighting** in this property. These costs usually make up the majority of your energy bills.

You could **save £995 per year** if you complete the suggested steps for improving this property's energy rating.

This is **based on average costs in 2024** when this EPC was created. People living at the property may use different amounts of energy for heating, hot water and lighting.

### Heating this property

Estimated energy needed in this property is:

- 10,427 kWh per year for heating
- 3,173 kWh per year for hot water

Impact on the environment		This property produces	9.2 tonnes of CO2
This property's environmental impact rating is F. It has the potential to be A.		This property's -0.2 tonnes of CO2 potential production	
Properties get a rating from A (best) to G (worst) on how much carbon dioxide (CO2) they produce each year.		You could improve this property's CO2 emissions by making the suggested changes. This will help to protect the environment.	
Carbon emissions		These ratings are based on assumptions about average occupancy and energy use.	
An average household produces	6 tonnes of CO2	People living at the property may use differ amounts of energy.	

## Changes you could make

Step	Typical installation cost	Typical yearly saving
1. Cavity wall insulation	£500 - £1,500	£283
2. Party wall insulation	£300 - £600	£122
3. Floor insulation (solid floor)	£4,000 - £6,000	£91
4. Hot water cylinder thermostat	£200 - £400	£49
5. Heating controls (programmer, thermostat, TRVs)	£350 - £450	£149
6. Biomass stove with boiler	£7,000 - £13,000	£105
7. Solar water heating	£4,000 - £6,000	£196
8. Solar photovoltaic panels	£3,500 - £5,500	£546

### Help paying for energy improvements

You might be able to get a grant from the <u>Boiler Upgrade Scheme (https://www.gov.uk/apply-boiler-upgrade-scheme)</u>. This will help you buy a more efficient, low carbon heating system for this property.

## Who to contact about this certificate

### Contacting the assessor

If you're unhappy about your property's energy assessment or certificate, you can complain to the assessor who created it.

Assessor's name	Jack Dillon
Telephone	07805354774
Email	jack-dillon-98@hotmail.co.uk

### Contacting the accreditation scheme

If you're still unhappy after contacting the assessor, you should contact the assessor's accreditation scheme.

Accreditation scheme	ECMK	
Assessor's ID	ECMK304970	
Telephone	0333 123 1418	
Email	info@ecmk.co.uk
