WINDOWS TO BE REPLACED WITH CLEAR GLASS AS DETAIL ON DRAWING 15

WINDOW HOPPER OPENING LIGHT TO BE PROVIDED-refer to dwg. no. 15 for details

All windows not shaded to have localised repairs to have existing frames and glass where possible. Many of the windows have been subject to vandalism, particularly at ground floor (though not limited to this) with both the lattice leaded glazing and frames damaged to many windows. A quotation to carry out the repairs and restorative works has been prepared by The Stained Glass Shop, Middlesbrough. Works to consist of: Repair stained glass windows across every window in the church. 93 sections of glass to be repaired or replaced with clear leaded glass 18 stainless steel openers 104 glass insitu repairs

All work to be traditional stained-glass method every section is individual. Glass to match the original and where possible one set of windows will have new glass and salvaged glass to be used in repairs. Metal frames to be drop open onto stays.
