

# Energy performance certificate (EPC)

42 ALEXANDRA STREET EBBW VALE NP23 6JF	Energy rating	Valid until: 13 June 2031
	<b>F</b>	Certificate number: 9649-1010-6206-5649-0200

Property type	Mid-terrace house
Total floor area	93 square metres

## Rules on letting this property

### ! You may not be able to let this property

This property has an energy rating of F. It cannot be let, unless an exemption has been registered. You can read [guidance for landlords on the regulations and exemptions \(https://www.gov.uk/guidance/domestic-private-rented-property-minimum-energy-efficiency-standard-landlord-guidance\)](https://www.gov.uk/guidance/domestic-private-rented-property-minimum-energy-efficiency-standard-landlord-guidance).

Properties can be let if they have an energy rating from A to E. You could make changes to [improve this property's energy rating](#).

## Energy rating and score

This property's energy rating is F. It has the potential to be C.

[See how to improve this property's energy efficiency.](#)

Score	Energy rating	Current	Potential
92+	<b>A</b>		
81-91	<b>B</b>		
69-80	<b>C</b>		80 C
55-68	<b>D</b>		
39-54	<b>E</b>		
21-38	<b>F</b>	32 F	
1-20	<b>G</b>		

The graph shows this property's current and potential energy rating.

Properties get a rating from A (best) to G (worst) and a score. The better the rating and score, the lower your energy bills are likely to be.

For properties in England and Wales:

- the average energy rating is D

- the average energy score is 60

## Breakdown of property's energy performance

### Features in this property

Features get a rating from very good to very poor, based on how energy efficient they are. Ratings are not based on how well features work or their condition.

Assumed ratings are based on the property's age and type. They are used for features the assessor could not inspect.

Feature	Description	Rating
Wall	Solid brick, as built, no insulation (assumed)	Very poor
Roof	Pitched, no insulation (assumed)	Very poor
Window	Single glazed	Very poor
Main heating	Boiler and radiators, mains gas	Good
Main heating control	Programmer, TRVs and bypass	Average
Hot water	From main system, no cylinder thermostat	Poor
Lighting	Low energy lighting in 33% of fixed outlets	Average
Floor	Solid, no insulation (assumed)	N/A
Secondary heating	Room heaters, mains gas	N/A

### Primary energy use

The primary energy use for this property per year is 631 kilowatt hours per square metre (kWh/m<sup>2</sup>).

▶ [About primary energy use](#)

## How this affects your energy bills

An average household would need to spend **£2,027 per year on heating, hot water and lighting** in this property. These costs usually make up the majority of your energy bills.

You could **save £1,193 per year** if you complete the suggested steps for improving this property's energy rating.

This is **based on average costs in 2021** when this EPC was created. People living at the property may use different amounts of energy for heating, hot water and lighting.

### Heating this property

Estimated energy needed in this property is:

- 23,988 kWh per year for heating
- 3,374 kWh per year for hot water

## Impact on the environment

This property's environmental impact rating is F. It has the potential to be C.

Properties get a rating from A (best) to G (worst) on how much carbon dioxide (CO<sub>2</sub>) they produce each year.

### Carbon emissions

An average household produces	6 tonnes of CO <sub>2</sub>
This property produces	10.0 tonnes of CO <sub>2</sub>

---

**This property's potential production**

---

2.9 tonnes of CO2

You could improve this property's CO2 emissions by making the suggested changes. This will help to protect the environment.

These ratings are based on assumptions about average occupancy and energy use. People living at the property may use different amounts of energy.

# Steps you could take to save energy

► [Do I need to follow these steps in order?](#)

---

## Step 1: Internal or external wall insulation

Typical installation cost £4,000 - £14,000

Typical yearly saving £563

Potential rating after completing step 1 **49 E**

---

## Step 2: Floor insulation (solid floor)

Typical installation cost £4,000 - £6,000

Typical yearly saving £50

Potential rating after completing steps 1 and 2 **51 E**

---

## Step 3: Draught proofing

Typical installation cost £80 - £120

Typical yearly saving £60

Potential rating after completing steps 1 to 3 **52 E**

---

## Step 4: Low energy lighting

Typical installation cost £30

Typical yearly saving £41

Potential rating after completing steps 1 to 4 **54 E**

---

## Step 5: Replace boiler with new condensing boiler

Typical installation cost £2,200 - £3,000

Typical yearly saving £363

Potential rating after completing steps 1 to 5 **66 D**

---

## Step 6: Solar water heating

Typical installation cost £4,000 - £6,000

Typical yearly saving £38

---

Potential rating after completing steps 1 to 6

68 D

---

## Step 7: Double glazed windows

Replace single glazed windows with low-E double glazed windows

Typical installation cost

£3,300 - £6,500

Typical yearly saving

£77

---

Potential rating after completing steps 1 to 7

70 C

---

## Step 8: Solar photovoltaic panels, 2.5 kWp

Typical installation cost

£3,500 - £5,500

Typical yearly saving

£338

---

Potential rating after completing steps 1 to 8

80 C

---

## Who to contact about this certificate

### Contacting the assessor

If you're unhappy about your property's energy assessment or certificate, you can complain to the assessor who created it.

Assessor's name

Neil Roberts

Telephone

07539934014

Email

[neelroberts@hotmail.co.uk](mailto:neelroberts@hotmail.co.uk)

### Contacting the accreditation scheme

If you're still unhappy after contacting the assessor, you should contact the assessor's accreditation scheme.

Accreditation scheme

Stroma Certification Ltd

Assessor's ID

STRO001795

---

---

Telephone	0330 124 9660
Email	<a href="mailto:certification@stroma.com">certification@stroma.com</a>

---

## About this assessment

---

Assessor's declaration	No related party
Date of assessment	14 June 2021
Date of certificate	14 June 2021
Type of assessment	▶ <a href="#">RdSAP</a>
