Energy performance certificate (EPC)

8, Wilton Avenue Holland Street HULL HU9 2JS	Energy rating **F**	Valid until: **30 May 2024** Certificate number: **0379-2871-6752-9824-5565**

Property type

Mid-terrace house

Total floor area

53 square metres

Rules on letting this property

! You may not be able to let this property

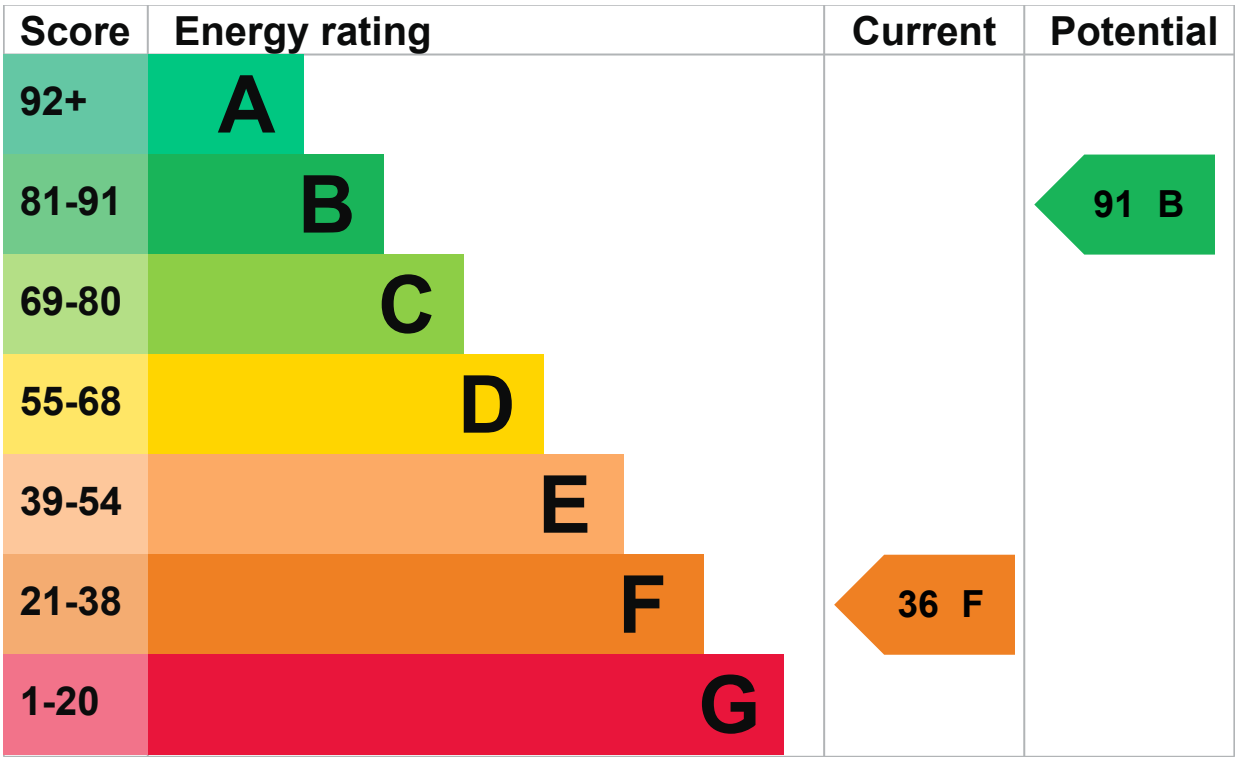
This property has an energy rating of F. It cannot be let, unless an exemption has been registered. You can read guidance for landlords on the regulations and exemptions (https://www.gov.uk/guidance/domestic-private-rented-property-minimum-energy-efficiency-standard-landlord-guidance).

Properties can be let if they have an energy rating from A to E. The recommendations section sets out changes you can make to improve the property's rating.

Energy rating and score

This property's current energy rating is F. It has the potential to be B.

See how to improve this property's energy efficiency.



The graph shows this property's current and potential energy rating.

Properties get a rating from A (best) to G (worst) and a score. The better the rating and score, the lower your energy bills are likely to be.

For properties in England and Wales:

- the average energy rating is D
- the average energy score is 60

Breakdown of property's energy performance

Features in this property

Features get a rating from very good to very poor, based on how energy efficient they are. Ratings are not based on how well features work or their condition.

Assumed ratings are based on the property's age and type. They are used for features the assessor could not inspect.

Feature	Description	Rating
Wall	Solid brick, as built, no insulation (assumed)	Very poor
Wall	Cavity wall, as built, no insulation (assumed)	Poor
Roof	Pitched, 75 mm loft insulation	Average
Roof	Flat, limited insulation (assumed)	Very poor
Window	Partial double glazing	Poor
Main heating	Room heaters, mains gas	Average
Main heating control	No thermostatic control of room temperature	Poor

Feature	Description	Rating
Hot water	No system present: electric immersion assumed	Very poor
Lighting	Low energy lighting in 63% of fixed outlets	Good
Floor	Suspended, no insulation (assumed)	N/A
Floor	Solid, no insulation (assumed)	N/A
Secondary heating	Portable electric heaters (assumed)	N/A

Primary energy use

The primary energy use for this property per year is 469 kilowatt hours per square metre (kWh/m2).

▶ About primary energy use

Additional information

Additional information about this property:

- Cavity fill is recommended

How this affects your energy bills

An average household would need to spend **£1,179 per year on heating, hot water and lighting** in this property. These costs usually make up the majority of your energy bills.

You could **save £771 per year** if you complete the suggested steps for improving this property's energy rating.

This is **based on average costs in 2014** when this EPC was created. People living at the property may use different amounts of energy for heating, hot water and lighting.

Heating this property

Estimated energy needed in this property is:

- 8,332 kWh per year for heating
- 3,151 kWh per year for hot water

Impact on the environment

This property's current environmental impact rating is E. It has the potential to be A.

Properties get a rating from A (best) to G (worst) on how much carbon dioxide (CO2) they produce each year. CO2 harms the environment.

Carbon emissions

An average household produces

6 tonnes of CO2

This property produces

4.6 tonnes of CO2

This property's potential production

0.4 tonnes of CO2

You could improve this property's CO2 emissions by making the suggested changes. This will help to protect the environment.

These ratings are based on assumptions about average occupancy and energy use. People living at the property may use different amounts of energy.

Changes you could make

▶ Do I need to follow these steps in order?

Step 1: Increase loft insulation to 270 mm

Typical installation cost

£100 - £350

Typical yearly saving

£23

Potential rating after completing step 1

37 F

Step 2: Flat roof or sloping ceiling insulation

Typical installation cost

£850 - £1,500

Typical yearly saving

£25

Potential rating after completing steps 1 and 2

38 F

Step 3: Cavity wall insulation

Typical installation cost

£500 - £1,500

Typical yearly saving

£32

Potential rating after completing steps 1 to 3

40 E

Step 4: Internal or external wall insulation

Typical installation cost

£4,000 - £14,000

Typical yearly saving

£129

Potential rating after completing steps 1 to 4

46 E

Step 5: Floor insulation

Typical installation cost

£800 - £1,200

Typical yearly saving

£35

Potential rating after completing steps 1 to 5

48 E

Step 6: Draught proofing

Typical installation cost

£80 - £120

Typical yearly saving

£9

Potential rating after completing steps 1 to 6

49 E

Step 7: Low energy lighting

Typical installation cost

£15

Typical yearly saving

£10

Potential rating after completing steps 1 to 7

49 E

Step 8: Change room heaters to condensing boiler

Typical installation cost

£3,000 - £7,000

Typical yearly saving

£449

Potential rating after completing steps 1 to 8

74 C

Step 9: Solar water heating

Typical installation cost

£4,000 - £6,000

Typical yearly saving

£33

Potential rating after completing steps 1 to 9

76 C

Step 10: Double glazed windows

Replace single glazed windows with low-E double glazed windows

Typical installation cost

£3,300 - £6,500

Typical yearly saving

£26

Potential rating after completing steps 1 to 10

77 C

Step 11: Solar photovoltaic panels, 2.5 kWp

Typical installation cost

£9,000 - £14,000

Typical yearly saving

£241

Potential rating after completing steps 1 to 11

90 B

Step 12: Wind turbine

Typical installation cost

£1,500 - £4,000

Typical yearly saving

£20

Potential rating after completing steps 1 to 12

91 B

Help paying for energy improvements

You might be able to get a grant from the Boiler Upgrade Scheme (https://www.gov.uk/apply-boiler-upgrade-scheme). This will help you buy a more efficient, low carbon heating system for this property.

Who to contact about this certificate

Contacting the assessor

If you're unhappy about your property's energy assessment or certificate, you can complain to the assessor who created it.

Assessor's name
Mark Badham

Telephone
07737226433

Email
info@adenltd.co.uk

Contacting the accreditation scheme

If you're still unhappy after contacting the assessor, you should contact the assessor's accreditation scheme.

Accreditation scheme
Northgate

Assessor's ID
NGIS800727

Telephone
01455 883 250

Email
enquiries@elmhurstenergy.co.uk

About this assessment

Assessor's declaration
No related party

Date of assessment
29 May 2014

Date of certificate
31 May 2014

Type of assessment
- RdSAP

Other certificates for this property
